

TASKEEN HAIDER

Software Engineer - Full-Stack, Backend & AI Automation

Lahore, Pakistan +92 328 1842351 raitaskeen.dev@gmail.com
linkedin.com/in/raitaskeen github.com/raitaskeen raitaskeen.me

SUMMARY

Software Engineer with 5+ years of experience in full-stack development, backend engineering, AI automation, and developer tooling. Strong in TypeScript, React, Node.js, Express.js, PostgreSQL, MongoDB, REST APIs, Docker, Git, and CI/CD. Focused on scalable systems, system design, static analysis, deterministic code intelligence, and bounded LLM automation.

SKILLS

Core: Full-Stack Development, Backend Engineering, REST API Design, System Design, Static Code Analysis, Developer Tooling, AI Automation, Performance Optimization

Languages: TypeScript, JavaScript, Rust, SQL

Frontend: React, Next.js

Backend: Node.js, Express.js, Bun, REST APIs, JWT Authentication

Databases: PostgreSQL, MongoDB, MySQL

Infrastructure: Docker, Linux, GitHub Actions, Cloudflare, CI/CD

Static Analysis: Tree-sitter, AST, CFG, DFG, Intermediate Representation, Dependency Analysis

AI and Automation: Claude Code, LLM Integrations, Tool-Using Agents, Structured Outputs, n8n, Workflow Automation

Practices: Agile, Scrum, Code Review, Automated Testing, System Design, Software Architecture

EXPERIENCE

Founder & Lead Developer | LegacyExodus

Aug 2026 - Present, Remote

- Designed a four-layer code-intelligence pipeline across AST, CFG, DFG, and IR for deterministic software analysis and modernization.
- Leading architecture and end-to-end development of verifiable transformation workflows with bounded AI-assisted reasoning.

Full-Stack & AI Automation Engineer (Internal Promotion) | ibex

Nov 2024 - Jul 2026, Lahore, Pakistan

- Built React/TypeScript dashboards, Node.js/PostgreSQL tools, REST APIs, and bounded LLM workflows supporting technical operations and diagnostics.
- Designed reusable automation and triage workflows for structured issue classification, log analysis, and engineering support processes.

Technical Support Specialist - Advanced Escalations | ibex

Mar 2024 - Oct 2024, Lahore, Pakistan

- Resolved 500+ escalated technical cases for a Fortune 100 technology client across connected devices, accounts, subscriptions, and digital services.
- Progressed from Level 1 to Level 3 within 6 months, handling increasingly complex technical and systems escalations.

Full-Stack Web Developer | Tech Vertex

Feb 2023 - Jan 2024, Remote

- Optimized React/TypeScript and Node.js/Express applications, reducing latency by up to 50% while maintaining 99.9% uptime.
- Designed JWT-secured REST APIs and integrated 2 external services, Stripe and Appwrite, across delivery workflows.

Frontend Engineer - Apprentice | Iridium Soft

Jun 2021 - Jan 2023, Lahore, Pakistan

- Developed reusable React and JavaScript components for responsive, maintainable, cross-browser web applications.
- Contributed to code reviews, Agile delivery, technical documentation, debugging, and collaborative frontend development.

PROJECTS

LegacyExodus: Deterministic static analysis and software modernization using AST, CFG, DFG, and IR-based code intelligence.

AxiomExodus: Rust-native, local-first data and AI infrastructure separating deterministic compute from bounded LLM reasoning.

Cine Vault: Full-stack media discovery application built with React, Node.js, Express.js, MongoDB, and REST APIs.

Open Source: 3 public contributions - freeCodeCamp PR #69385 | MDN Web Docs PR #281 | Kana Dojo PR #27003

CERTIFICATIONS

HackerRank - Software Engineer, Sep 2026 - Problem Solving, SQL, REST APIs

Anthropic - Claude Academy: Claude Code in Action, Sep 2026 - Developer Tooling, GitHub CI/CD Automation

Cisco - Introduction to IoT, Sep 2026 - Internet of Things, Digital Transformation

EDUCATION

Bachelor of Science (BS) in Software Engineering

University of Management and Technology (UMT), Lahore

Expected Graduation: Nov 2026, Current Grade: A

Relevant Coursework: Data Structures & Algorithms, Database Systems, Object-Oriented Programming, Software Architecture, Web Application Development
